Profile

Results-driven Front End Developer proficient in HTML, CSS, JavaScript, and React, specializing in building responsive, user-centric web applications. Experienced with Tailwind CSS, REST APIs, and Git, delivering efficient, high-quality code that enhances usability and performance. Adept at collaborating in agile environments and contributing technical expertise to drive business objectives.

Professional Experience

- | | | |
|--------------------------|---|--------------------|
| 12/2023 – 02/2025 | QA Engineer, Hogrefe Publishing <ul style="list-style-type: none">• Designed and executed automated test cases using Playwright, improving test coverage and reducing manual regression efforts.• Developed end-to-end and UI automation scripts to validate critical workflows in the Next Generation HTS platform.• Integrated automated tests into the CI/CD pipeline, ensuring smooth test execution with each deployment.• Collaborated with developers to debug issues, improve test reliability, and maintain automation scripts.• Participated in Agile (Scrum) ceremonies, including sprint planning, stand-ups, and retrospectives, using Jira for test case management and defect tracking.• Used Git, GitHub, and GitLab for version control, managing test scripts and collaborating with the development team.• Conducted manual testing for new features, bug fixes, and performance improvements, ensuring high software quality before release. | Newburyport,
MA |
| 07/2022 – 02/2025 | Front End Software Developer, Hogrefe Publishing <ul style="list-style-type: none">• Developed and optimized React components for the Next Generation HTS platform, improving performance and maintainability.• Collaborated with designers and backend engineers to enhance UI/UX and ensure seamless integration with REST APIs.• Worked in an Agile (Scrum) environment, actively participating in sprint planning, stand-ups, and retrospectives using Jira for task tracking. | Newburyport,
MA |

- Managed version control, code reviews, and branching strategies using Git, GitHub, and GitLab, ensuring clean and efficient development workflows.
- Assisted in integrating front-end code into a CI/CD pipeline, automating builds and deployments for faster release cycles.
- Debugged and optimized application performance, reducing load times and enhancing responsiveness.

Education

09/2020 – 05/2021 **Certificate in Web Development**, *Harvard Extension School*
Coursework in JavaScript Fundamentals, Node.js, and Intro to Web Development
